

WELCOME TO MDM HONDURAS

What is MDM Honduras? MDM Honduras supplies rural Honduran communities with the financial and human resources needed to sustainably enhance the quality of life of its children and families. Applying a Biblical worldview to walking out our strategic priorities, we empower local leaders and communities to take responsibility for their own future.

Why does MDM Honduras exist? The goal is for the Honduran people to embrace the responsibility to fully own the transformation to best ensure generational sustainability, by implementing a repeatable, sustainable model of delivering financial and human resources.

How does MDM Honduras fulfill its mission? Equipping and empowering local, community-based leadership to facilitate transformation through:

- **Education:** Through our Sponsorship program we provide educational assistance and resources that helps children overcome the financial and academic barriers that otherwise would interrupt their formal education.
- **Economic Development:** Our goal is to encourage local entrepreneurs to follow their dreams by teaching them business skills and finance education.
- **Community Health:** Along with the San Matías Patronato (Mayor) and the other 15 villages, we identify requirements in their villages, and then establish solutions which engage self-help systems and partners with visiting mission teams to assist with the project completion.
- **Spiritual Development:** We work with the students and families of those enrolled in our afterschool program through a personalized approach to share the gospel with their families.

Our approach to Community Transformation creates an integrated strategy to help families and communities thrive. Each leg of the strategy has projects that breath life into the communities and are direct opportunities for short-term missionaries to engage in meaningful ways.

What is the impact of MDM Honduras?

Education

350+ Students sponsored

63 HS graduates

3 College graduates
